Hey! I'm Eden.

I am an independent visual artist and filmmaker based in Neuchatel, Switzerland. Having grown up in Singapore, Hong Kong, New York, and Miami, I was exposed to strongly contrasting cultures at a young age. This allows me to approach filmmaking and digital creation with a set of fresh eyes and ideas. Proficient in the Adobe Suite and Blender, I am able to create a wide array of visuals both digital and true to life.

I look forward to using the tools at my disposal in order to help you fulfill your creative vision.
